

# Jack P

## Maths and Physics Tutor

### Education

*University of Oxford*  
PhD, Engineering Science  
Hudson Fellowship

*University of Southampton*  
Masters of Engineering, Naval Architecture  
and Marine Engineering

*Whitgift School*  
A Levels + GCSEs  
Academic Scholarship 2009-2016

### About me

Experienced tutor with an engineering background. I offer targeted support for exam preparation, school entry, and subject confidence in Maths and Physics (from Pre-GCSE to A-Level).

My approach is calm, clear, and methodical, focused on building understanding through repetition, visual explanation, and problem-solving strategies. Having personal experience of dyslexia and dyspraxia, I can work with students from a range of backgrounds, including those with SEN needs such as dyslexia, dyspraxia, and processing difficulties.

#### Recent Student Successes:

Year 6 girl sitting 11+. Weekly sessions reviewing weak areas (maths), breaking down past papers, and re-learning core concepts with visual aids.

Outcome: Gained offers from two highly competitive day schools in Oxford.

Year 13 boy aiming for Engineering at university with the goal to secure A in Maths after a shaky AS year. Worked through problem areas in calculus and mechanics, refined method and speed, and built exam stamina. Outcome: Achieved A in final exams, met university offer.

### Subjects offered

- 11+ Maths and Physics
- 13+ Maths and Physics
- GCSE Maths and Physics
- A-Level and IB Maths and Physics
